

Virtual Water Damage Restoration Technician (WRT) IICRC Certification

Hosted By:

Aire Guardian® Academy

Abatement Technologies

(IICRC approved; 14 IICRC CEC credits)

Course dates: Nov 15,16 & 17, 2023

Start time: 9:00 am EST (Eastern Standard Time)

Daily: 8 hours

The Water Damage Restoration Technician 3-day course will be delivered virtually via the Zoom platform. To participate you must have a stable internet connection, a camera on your computer, speakers and a microphone. In this course you will learn how to be more efficient, productive and more profitable in completing water damage jobs. This course will be taught by our experienced instructor, Pat Dooley from Restoration College. Pat has been in the Restoration Industry since 1977. During this time Pat successfully ran eight Restoration firms and a Carpet Cleaning Company in British Columbia. Pat developed and taught the very first Applied Structural Drying course for the IICRC (the most advanced course available today). Pat has certified thousands of people and is one of the most experienced instructors in the field. This high impact course is highly recommended for any serious Restoration Professional.

Topics Covered for the WRT:

Introduction to Water Damage - Psychometrics

Equipment and Supplies

Mildew Growth and Correction

Application of Antimicrobials

Effects of Water on Flooring Materials

Structural Drying Telephone Procedures

Initial Inspection/Damage Containment

Standard Dry out Procedures

Sewage Backflows & more!

Total price for each student includes: WRT course delivered virtually via the Zoom platform and an electronic version of the WRT manual. The IICRC WRT exam fee is included. When requested, you will have to provide us with a scan of your photo ID (preferably a drivers' license) for us to register you for the IICRC exam.

TO REGISTER THE 3 DAY COURSE & EXAM COST WILL BE \$550 CDN+ Applicable provincial sales tax.
